Employee Assistance Programs (EAP) provide professional help to employees and their household family members for personal, family and workplace problems. The employer through a negotiated arrangement pays for this benefit for their employees. All counseling is free to the employee and confidential.

The right to privacy is one of the most crucial aspects of the program. The employee's right to confidentiality is respected. To the extent permitted by law, Acumen Counseling will not share any information regarding an individual's involvement with the EAP without the individual's written permission.

All of our EAP counselors are licensed mental health professionals in the states in which they practice. They are experienced, highly trained professionals with a Master's Degree or higher in fields such as counseling, substance abuse, social work or psychology.

Acumen offers flexible appointment times and office hours. The employee or household family member when scheduling an appointment will need to identify the employer at the time of the call. If an emergency occurs after hours, a crisis line is available 24/7 by calling 800.433.7291.

Mission Statement

Habitat for Humanity International is a non-profit ecumenical Christian housing ministry. HFHI seeks to eliminate poverty housing and homelessness from the world and to make decent shelter a matter of conscience and action. Habitat invites people from all walks of life to work together in partnership to help build houses for people in need.

Basic Information

- Our affiliate was established in October, 1988
- We have built 125 houses for partner families in our community. We are currently working on #126, #127, #128, #129, and #130!
- Application information is available at our office. We require that a partner family put in at least 350 hours of “sweat equity”. This is the amount of time a homeowner has to work with our affiliate before being able to move into his or her house. This work includes helping to build the home, assisting in our office, or with special projects, and helping to build someone else’s Habitat home.
- Our Habitat affiliate takes applications the months of January and June.
- Many different groups come together in this community to build these houses. Habitat board and committee members help, along with churches, civic groups, schools, builders and trades people. If someone wants to help, we find a job for them, regardless of age, skill or physical limitations!
- We frequently work with what we call “Covenant Churches” in our community to raise funds and to actually build houses. Habitat believes in the “theology of the hammer” This means that our religious beliefs may vary, but we all can be united in building homes for low income families - giving them a hand up, not a hand out.
- House size is determined by size of family.
- We sell houses to our partner families, financed with no interest mortgages that are issued for 20 years. House payments go into a fund that is used to buy property and to build more houses. **Eligibility Requirements** □ Need for housing.
- Ability to pay.
- Willingness to partner.

- **Adult Community Service Program** - This is a placement program for low-income or unemployed offenders. These individuals perform community service at non-profit agencies or governmental agencies in lieu of paying fines, as a condition of pre-trial diversion, or a condition of Deferred Prosecution. Civic groups, non-profit agencies, governmental entities, schools, and community functions (such as the W.C. Handy Festival and Bambino World Series) receive thousands of hours and dollars of free labor from this service.
 - **In-Home Incarceration For Juveniles And Adults** - Involvement, Inc. operates an electronic monitoring service that allows nonviolent offenders to remain in the community, attend school, or remain employed in lieu of being incarcerated at local or state facilities. Failure to meet this regimen is a violation of the client's Conditional Discharge.
